

European Union Lifelong Learning project funded by the EU. Request for cooperation, please

**EU funded education project summer competition**

- for secondary students all EU countries

Dear Prof.ssa Bruna Visintin Rauzi

The EU LeTeEm project is looking for secondary school students (for 13 to 18 years) in Europe, to enter our summer competition to teach them about the world of work. Please tell your students, they can enter themselves and work on the project autonomously. In the link you will find the project guide and registration form. <http://leteem.uws.ac.uk/index.php/en/competition>

Students will be asked to research and write either a business or marketing plan and make a short video to summarise their work. The process of researching and writing will help them prepare for the realities of the workplace.

LeTeEm is a European project about by bringing together all the stakeholders who can help prepare students for the realities of the workplace.

We hope you will be able to help the project?

Best wishes

Professor Thomas Connolly (coordinator)

University of the West of Scotland.
